

Allied Air Repair™

Allied Air Repair is a cooperative air conditioning, ventilating, plumbing and refrigeration group of service companies established to meet the service and financial needs of clients who have multiple locations throughout the United States of America that may require a minimal number of service providers to perform routine service and preventive maintenance tasks designed to reduce overall operational costs in their facilities while increasing productivity and improving comfort.

Each company within the Allied Air Repair cooperative is required to be a member of Air Conditioning Contractors of America (ACCA). All companies within Allied Air Repair participate in a best practices networking group sponsored and governed by the ethics and guidelines of ACCA.

All current Allied Air Repair operate their companies with the same outstanding high level service standards and ethics. This allows Allied Air Repair to provide constant high quality service with outstanding response time on a national scale while being accountable to the end user on a local or regional basis.

If you have multiple locations, there's a good chance Allied Air Repair can meet and/or exceed your needs. The benefits of partnering with Allied Air Repair are; Single Source Responsibility for all your locations, One Number to call, One Contact and Flexible Invoicing customizable to fit your company's A/R procedures.

Whether it's air conditioning, ventilation, refrigeration or plumbing needs, Allied Air Repair can meet ALL your facility's maintenance, service and installation requirements. For further information, please contact Allied Air Repair toll free @ 866-671-8670. We will be more than happy to customize a Preventive Maintenance Program or service that fits your needs while being sensitive to your budget.
